### **DETAILED ACTION**

Claims 10-12, 15-17, 19, and 20 are objected to because of the following informalities: Claim 17 continues to recite Sequences non-elected. Page 12 of the previous Official Action indicated claim 17 as objected to and allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and deletion of the non-elected species. It is noted, that in the Official Action mailed 2/13/03, at page 3, it was stated that "Applicant is required under 35 U.S.C. 121 to elect a single species [one disease and 1 sequence] for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held allowable. Applicant elected SEQ ID NO:49 which is the Sequence that was specifically searched. No generic claim has been found finally allowable in the instant application. Appropriate correction is required.

It is noted that in the response filed 3/17/03 applicant made all elections without traverse. It is noted that the examiner may cancel claims 21-26 and 65 upon an indication of allowance of the elected invention, however the examiner would not favor amending pending and examined claims to remove non-elected subject matter. Applicant should amend the claims so that the non-elected subject matter is removed so that the application may be passed to issue. Applicant should carefully amend the claims so as not to introduce new considerations since the response will be treated

under 37 CFR 1.116. The examiner is available at the times indicated below if applicant has any questions in regard to this Official Action.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
